P.O. Box 74801-00200 ,Nairobi, Kenya

Located at the 6<sup>th</sup> floor of the Lavington Mall are the U-Design offices, designed by us for us. The offices have an industrial design feel to them with certain features such as the staircase taking center stage.

The space is on split levels. The lower floor houses the reception, admin, interiors, accounts departments and the upper floor holds the Partner Offices, Architects and technical staff. The upper floor layout is an open plan.

The boardroom and meeting room have a more modern finish with gypsum walls and ceilings, and LED lights. The carpets are wall to wall and custom made with our company colours.
